

2017 DCA South Coast Summer Rallies

The DCA does not run a safety boat. Dinghy cruising on exposed waters is for experienced sailors only, but most venues may be reached by sheltered waters. Check marine weather forecasts and local conditions before you sail, and remember there is no shame in not sailing if you think conditions might be more than you can manage. For further information please Contact: the relevant host. It helps to let the host know if you intend to come. Members are welcome to propose and host additional events at times other than those listed, perhaps using the DCA discussion forum or, for Solent area rallies, Yahoo group *dinghysolent* to set-up events.

Tides are HW BST Portsmouth except where indicated otherwise.

For phone nos. of host or further details, please email ebakeratwestfield@outlook.com.
